NORMAN®
SHUTTERS. BLINDS. SHADES.

Quality isn't just a Catchphrase It's Our Heritage

With over 50 years of excellence in crafting fine window furnishings, Norman®'s quality has made it famous. It's what drives Norman® to innovate. And why you can see it in every detail. Few companies will farm their own wood, make their own components, or weave their own cords. At Norman®, everything matters. And anything is possible.

Norman® strives to exceed the highest industry standards. That's why Norman® is focused on leading the industry in quality, service, selection and value. From patented performance technologies and award-winning product designs to socially responsible manufacturing and forestry practices, Norman® has a history of defining the future.

Energy efficiency plus view-through with privacy.
Select Solar Screens are now made of **100% polyester fabrics.**

PVC SOLAR SCREENS

Conventional Process

PVC Solar Screens

- ✗ Plasticky feel & appearance
- ✗ Heavy and thick, harder to operate
- ✗ Can emit undesirable odors
- ✗ Inconsistent fabric/quality

100% POLYESTER SOLAR SCREENS

Improved Process

Polyester yarn is woven into a fabric with more desirable characteristics

Polyester Yarn

Soluna™ 100% Polyester Solar Screens

- ✓ Luxuriously textured fabric-like feel and look
- ✓ Lighter weight, easier to operate
- ✓ Durable, yet flexible
- ✓ Environmentally friendly
- ✓ Odor free
- ✓ Multiple weaving options to create a gallery of textures & patterns

HOW TO CHOOSE

1. SELECT OPACITY / LIGHT CONTROL

Select an opacity depending on your view-through preferences and practical requirements – either sheer, light filtering or room darkening. Then choose from one of 3 main fabric types – Natural, Designer or Solar Screen. All Solar Screens have a “%” designation. The higher this number, the more open or “see-through” the fabric.

2. SELECT LIFT SYSTEM

Our unique PrecisionLift™ Cordless offers one-touch lift for quick, precise and nimble control. The innovative SmartRelease™ option helps you save time and effort daily, offering complete lowering with a single cord pull. The award-winning Norman® Smart Motorization system makes operating and recharging shades easy. Experience the art of convenience.

3. SELECT TOP TREATMENT AND ACCESSORIES

Choose a top treatment for an elegant touch, including Fascia, Valance and Cassette. Common valances allow multiple shades to share a valance. Choose the optional Light Guard option to help substantially darken your room.

4. OTHER OPTIONS

Select a shade configuration: single shade, coupled shade or dual shade. It all depends on your light control needs and personal style.

1. SELECT OPACITY / LIGHT CONTROL

Sheer

Provides an atmospheric touch with significant view-through while softening the outside view. A perfect complement for Dual Shades.

Light Filtering

Offers a wide range of light diffusion from bright to dim. Ensures privacy and may reveal shapes or outlines depending on fabric.

Room Darkening

The fabric blocks almost 100% of incoming light. A perfect choice for environments where blackout and privacy control is a must.

2. SELECT LIFT SYSTEM

Shade Automation

Norman® Smart Motorization embodies innovation. With the ShadeAuto™ App, effortlessly control all the shades in your home with a single touch using your smart device. Whether you are home or away, personalize your experience by programming your shades to adjust automatically or seamlessly integrate with Smart Home solution for unparalleled convenience and security.

SCAN TO WATCH

AutoWand™ Motorization

Your budget-friendly motorization option is here. The simple and intuitive design allows you to automatically control your shades. With a simple push of a button, raise or lower your shades effortlessly.

Continuous Cord & SmartRelease™

Continuous Cord utilizes a bead chain for easy lowering and raising. Innovative SmartRelease™ allows the convenient release of the shade. With one simple pull, the shade smoothly and quietly lowers to a completely closed position automatically.

Keystones

Bracket in Bronze

Hem Bar in Bronze

Elevate your roller shades with the **Premium Hardware Collection**. Choose from luxurious finishes — **Bronze, Brass, Brushed Black,** and **Brushed Matte Silver** — to add a striking, modern accent to any space. Compatible with every lift system, including customer favorites like **PrecisionLift™ Cordless** and **Norman® Smart Motorization**, these premium options deliver the perfect balance of sophisticated style and effortless functionality.

All colors printed in booklet are for reference only and may differ from those of our actual products.

Light Guard

Light Guard is designed to block direct light that escapes off the top and sides of window openings. Available in an array of colors, it can be easily coordinated with the fabric color.

LightGuard 360™

Introducing the next generation in light-blocking technology: LightGuard360™. This innovation provides maximum blockage of both diffused and direct light, making it perfect for bedrooms, nurseries, media rooms, and more.

4. SELECT OTHER OPTIONS

Single Shade

A perennial favorite that adds a clean and modern touch to your décor, the Single Shade lifts and operates independently. Versatile enough for nearly every window, they're an ideal solution for light diffusion, glare control, heat reduction, UV blockage and for maintaining comfort, style and privacy.

Coupled Shade

Perfect for expansive windows and sliding doors, Coupled Shades link multiple shades together with minimal gaps in between. Depending on the configuration, shades can operate independently or move together in unison—offering tailored versatility and effortless convenience.

Dual Shade

Like two shades in one, the dual layered approach features one shade behind another shade for the ultimate in versatility. Each shade operates independently, allowing you to mix and match fabrics for controlling light, view and privacy throughout different times of day.

PALLADIAN SHELF

The innovative solution creates a decorative mounting surface inside an arched window so that our shades can be installed in the resulting squared opening. Palladian shelves, which are made of wood, are an elegant way to split the curved part and squared part of arched window openings.

AVAILABLE COLORS

All colors printed in booklet are for reference only and may differ from those of our actual products. Please refer to our color swatch samples for actual product colors.
