# PATTERN (Design) DIRECTIONS

---

## Grommet

- Features 2" grommets spaced approximately 4" apart.
- Works with rods up to 1" inches diameter.
- Two panels are recommended if the width is wider than 60".
- Not recommended for wide, 1-way draw panels where center support is required.
- Finished height includes 1" of fabric above the grommets.
- Note: Your panels will extend above the drapery pole. That space will need to be considered when installing the rod height.

## Pinch Pleat

- Pinch Pleat style has French 3 fingers and French 2 fingers options.
- Pleats are tacked at the top, middle and bottom.
- Standard 250% fullness for drapery and 300% fullness for sheer.
- 2 panels are recommended if the width is wider than 60".
- Note: Some of thicker fabrics cannot be pinched but we can provide assistance as needed.

2 Fingers

3 Fingers

## Back Tab

- Works with rods up to 3" inches diameter.
- Two panels are recommended if the width is wider than 60".
- Not recommended for wide, 1-way draw panels where center support is required.
- Note: This seems like a budget-friendly option because of the lack of rings and hooks, but the labor cost to create the tabs will likely cost more than the rings.

## Ripple Fold

- It has a signature "S" fold.
- No buckram is necessary for Ripplefolds. Snap tape is used instead.
- This header style traverses the track or hardware frictionlessly, creating a floating aesthetic.
- Clean, uniform look, appropriate for a wide range of environments from residential and commercial interiors.
- Note: Ripplefold panels require specialty hardware.

## Grommet

Grommet draperies are an attractive, soft, folding style in which grommets are used with a decorative pole. Standard Grommet inner size is 1 5/8" diameter. Finished height includes 1" of fabric above the grommets. Which will be calculated automatically by us.

Colors: Brass, Antique Silver, Polished Nickel, Matt Black and Oil Rub Bronze.

Width (inches)	Number of Grommets
26	8
36	10
50	14
72	20
84	22
96	26
108	30
120	32
132	36
144	38
156	42
168	44

## Back Tab

Back Tab draperies have tabs sewn onto the back and flow naturally into a casual folded appearance. The tabs and rods are concealed at the back of the drapery.

Back Tab Sizes See the below chart for the tab length.

Rod Type	Tab Size (inches)	Rod Take Up* (inches)
3/4" Pole	4 1/2	1/2
1" Pole	4 1/2	3/4
1 3/8" Pole	4 1/2	1
2" Pole	4 1/2	1 1/2
3" Pole	4 1/2	2

\*NOTE: Please specify the rod type when ordering, the workroom will add these allowances for take up.

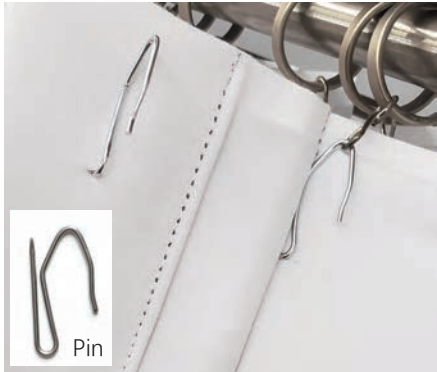

**Pinch Pleat**

Pleated draperies are attached to a rod using pin hooks. They can be used as stationary panels or as movable draperies on a traversing rod.

Measuring: The standard pin setting is 1 3/4" down from the top of the drapery. Other pin settings are available upon request at no charge.

1/2" deduction will be taken from the height of draperies used as an under treatments.

Width(250% fullness)	Number of Pleats
26	9
36	12
50	17
72	23
84	27
96	31

## Ripple Fold

It has a signature "S" fold. No buckram is necessary for Ripple folds. Snap tape is used instead.

Butting vs. Overlap The center pleats of a split-draw Ripple fold may be made to overlap or butt together when closed. Please specify when ordering.

Ripple Fold Fullness Example

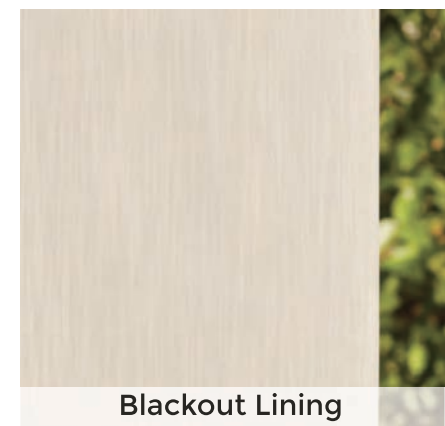

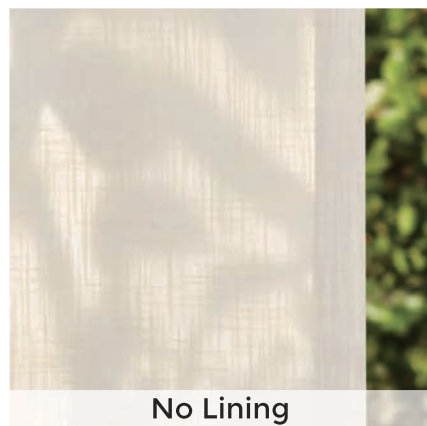

Lining adds more fullness and body to your drapery. It also protects the fabric from the harmful effects of sunlight. Its required on silk and linen for that reason, and that will help your drapery last longer. Linings also enhance light control, privacy, insulation, and noise reduction. Choose from LF Lining, LF Plus Lining, Thermal Lining, and Blackout Lining (shown below).

Lining is standard on all non-sheer draperies. You may specify white, beige, or gray. You must pick a lining if you want LF, LF Plus, Thermal, or BO lining in pricing. It is a standard.

Lining Type	Width (inches)	Fabric Composition	Weight (oz/y <sup>2</sup> )
LF Lining (White, Beige, Gray)	110	100% Polyester	2.0
LF Plus Lining (White, Beige, Gray)	110	100% Polyester	7.0
Thermal Lining (White)	110	100% Polyester	5.0
Blackout Lining (White, Beige, Gray)	110	100% Polyester	7.0

# DRAPERY LENGTH STYLES

---

## A. Sill:

½" above the windowsill. Casual and charming. These are the shortest of the standard curtain lengths, which make them a good choice for some fun pattern or color experimentation. Since they take up less visual space, you won't get tired of a bold choice.

## B. Apron:

1" below the bottom of the window apron. Crisp and unfussy. These aren't as popular as they used to be, but apron curtain lengths are still acceptable and undeniably practical. Your curtains won't gather dust and dirt from the floor, and they'll be easy to open and close.

## C. Floor:

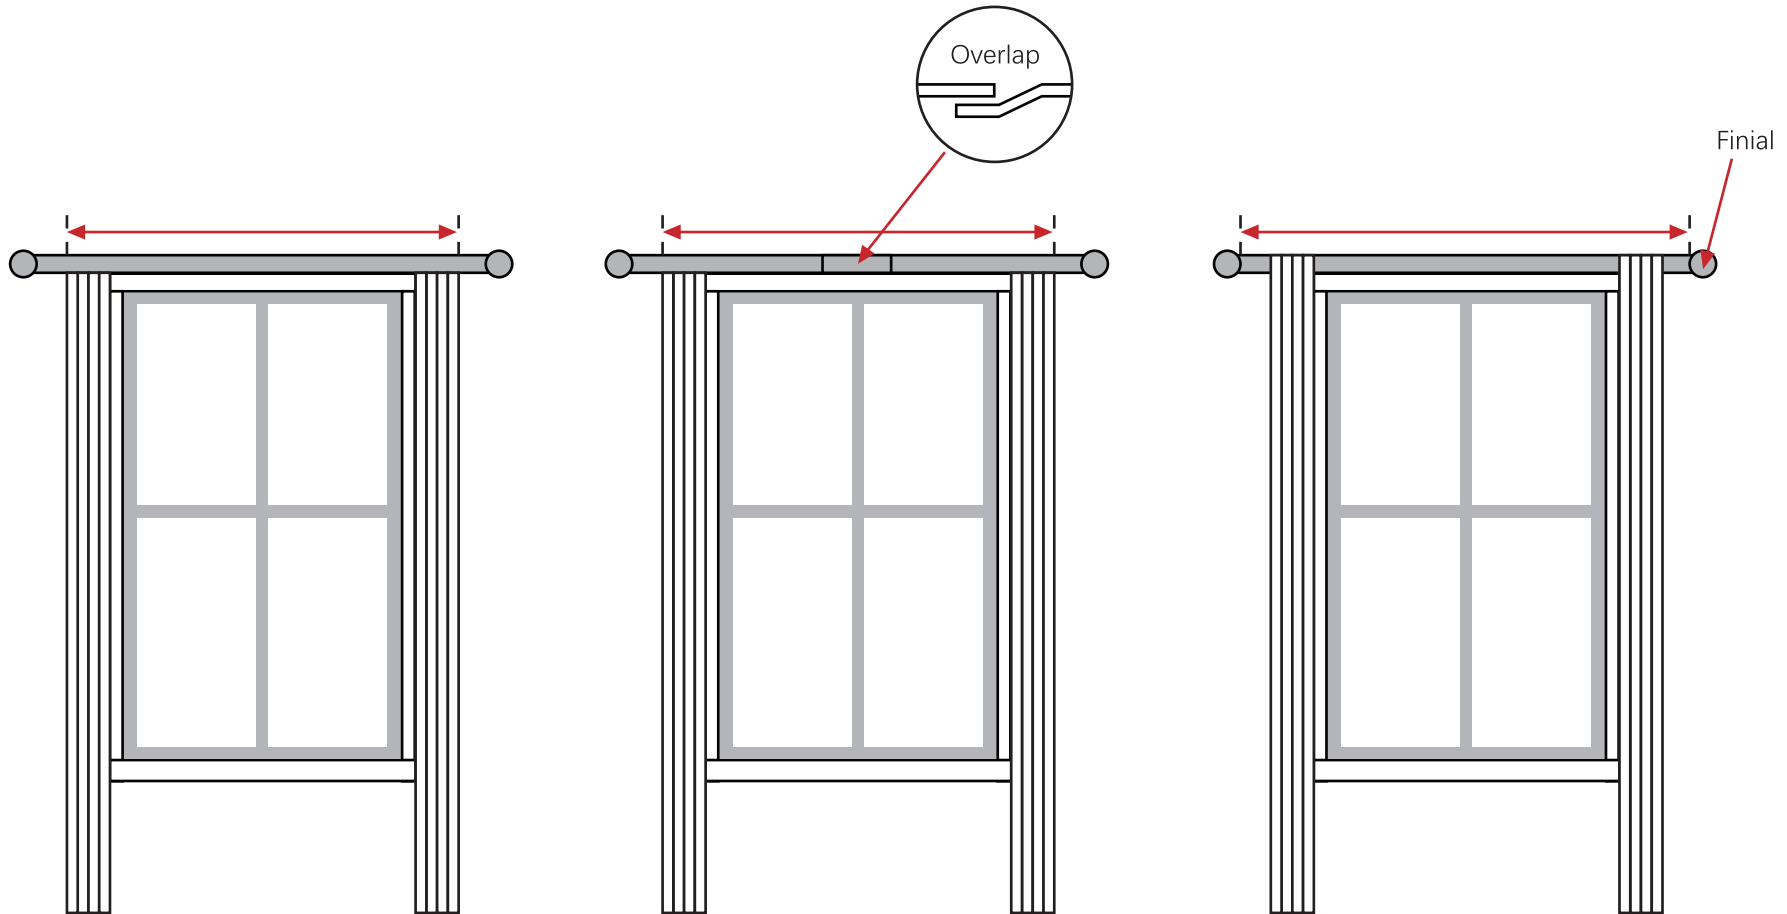

½" above the floor. Polished and stylish. This is my favorite length, and it's popular right now for good reason. Floor-length curtains will elongate your window and make your room feel taller. Since they don't quite touch the floor, the curtains will hang perfectly straight. The hem also stays clean and doesn't pick up dirt, dust, or pet hair.

## D. Puddle:

6-10" more than the length to the floor. Luxurious and dramatic. This look is beautiful when done right, but it's not for curtains that are routinely opened and closed. It's also not recommended if you have pets or young kids. The extra fabric pooling at the bottom tend to pick up pet hair, crumbs, and dirt.

## Measuring For Your Width

- Measure the bracket to the corresponding bracket on the window.
- Add customized overlap size to your total width (will be charged), or we will add 3 1/2" as standard for free.
- Add customized return size to your total width (will be charged), or we will add 3 1/2" as standard for free.

Drapery Track

Drapery Track With Overlap

Drapery Poles

## Measuring For Your Length

### GROMMET HEADING DRAPES

Measure from the top side of the pole to the desired length and record it as your length measurement. Measure in three places (left, middle, and right) and record the shortest measurement. The final length will be added 1" longer automatically to the recorded length.

### BACK TAB HEADING DRAPES

Measure from the top side of the pole to the desired length and record it as your length measurement. Measure in three places (left, middle, and right) and record the shortest measurement. The final length will be automatically added 1/2" -2" longer to the recorded length, based on the rod size.

### PINCH PLEAT HEADING DRAPES

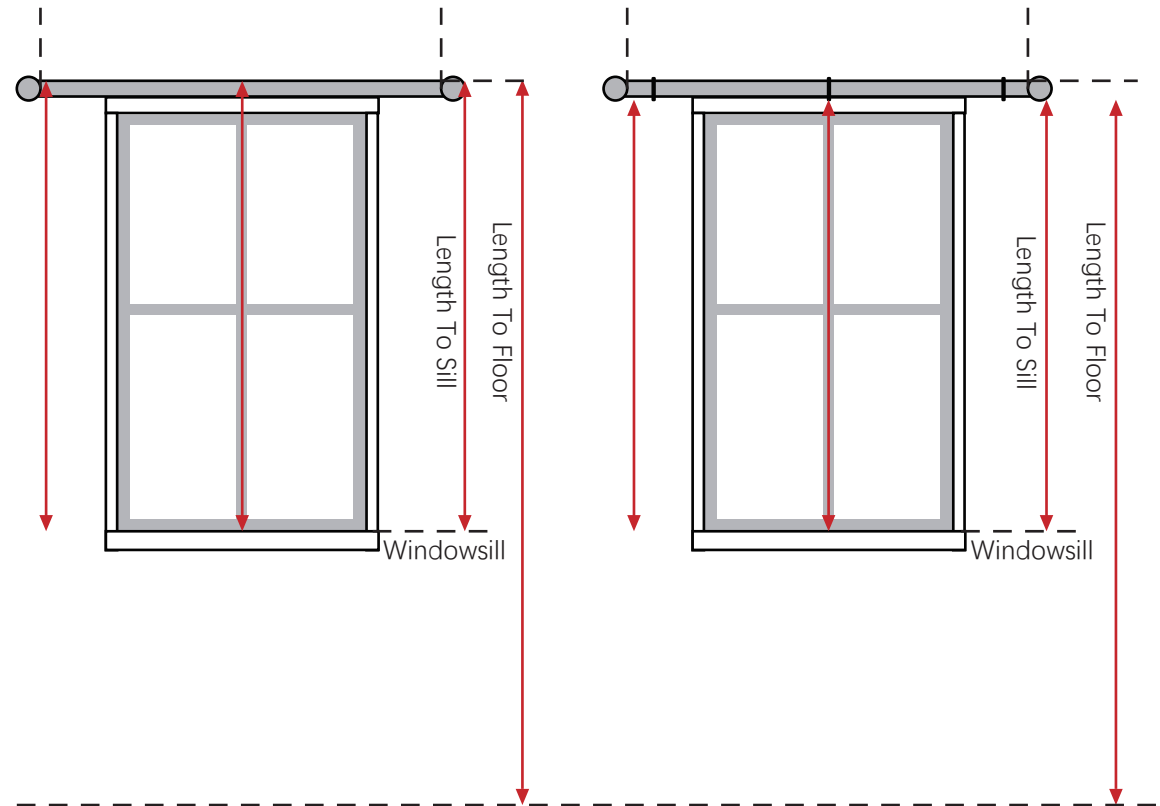

First, decide whether you want to cover the track or pole with the drapes or if you want the drapes to sit under the track or pole (on the ring).

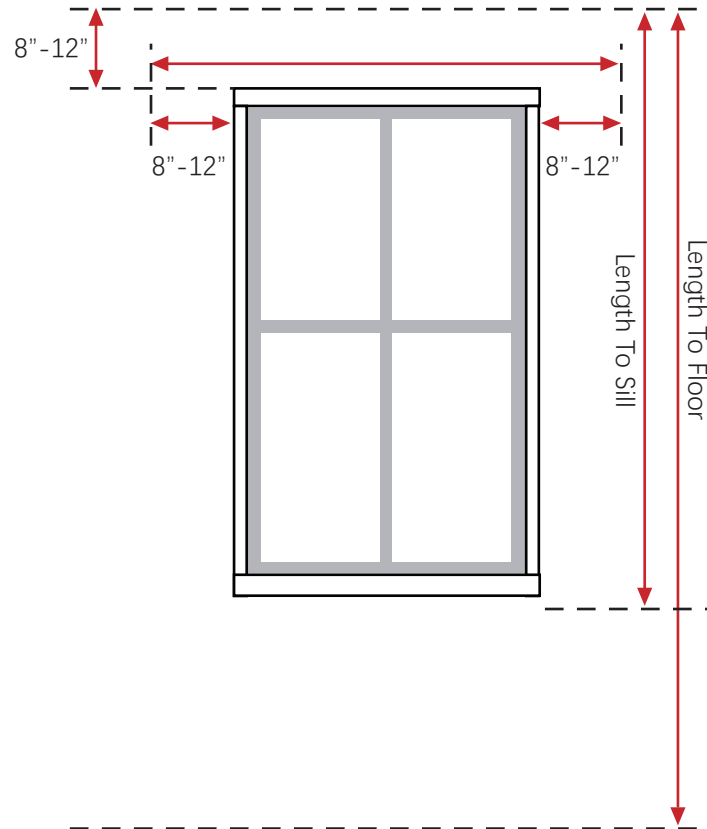

**Cover Track/Pole:** Measure from the top of the track or pole to the desired finish point of the drapes. Measure in three places and provide the shortest measurement.

**Under Track:** Measure from the ring or hook down to where you want the drapes to finish. Measure in three places and provide the shortest measurement.

### RIPPLE FOLD HEADING DRAPES

A ripple fold header needs a special track to create the ripple fold effect. The track will be visible when fitted—measure from the top of the track where it will be fitted down to your desired drop. Measure in three places and provide the shortest measurement.

## Measuring For Your Pole Or Track

Always follow the measuring and fitting instructions provided with the pole or track.

If there is space around the window, we recommend an overlap of 8"-12" at each side and above the window.

Note: We strongly suggest that you to measure and fit your track before measuring for drapes.

## General Tips

- After installation, some folding creases will disappear over a period of time.
- All the draperies have a care label on the side hem. Before ironing or washing, please read and follow the instructions carefully.
- If your draperies are pinch pleat style, please remove the hooks before washing.

# DRAPERY CONSTRUCTION

---

## Fabric Orientation A and Maximum Length

The fabric with a 110"/118" width and railroaded pattern, allows a maximum drapery height of 104" in standard fabrication. For heights exceeding a 104" drapery drop, the fabric can be rotated 90 degrees and fabricated up the roll to achieve unlimited height, with vertical seams concealed within the drapery pleats.

All other fabrics have a standard maximum length of 225".

## Pattern Placement

For split draw and draperies marked as same room on your order, the same pattern placement will be used. Drapery pattern placement starts at the top of the drapery.

## Hems

All draperies have a 1 ½" double turned side hem.

Non-sheer fabrics have a 4" double turned bottom hem with corner weights.

Sheer fabrics can be ordered with a weighted Euro hem or a 4" double turned bottom hem. When ordered with a 4" double turned bottom hem, sheer fabrics include corner weights.

## Returns:

- Grommet and Back Tape are made with no returns.
- Pinch Pleat is made with 3 1/2" returns and 3 1/2" overlap as standard.
- Ripple Fold is made with 1 3/4" returns as standard.

## Bead Weighted Bottom Hem

A bead weight can be sewn into the bottom hem of a side panel or drapery to reduce flaring and help thicker fabrics lie straighter as standard.

## Standard Specification:

- Grommet and Back Tab are 200% fullness for fabric drapery.
- Pinch Pleat is 250% fullness for fabric drapery.
- Ripple Fold is 80% (180%), 100% (200%), 120% (220%) fullness for fabric drapery.
- Sheer is 300% fullness for all head style.
- Other customized fullness will be quoted upon request.

## Drapery Specification - Grommet

OPTION	DESCRIPTION
Minimum Sizes Available	(W)26" x (H) 12"
Fullness	150%, 200%, 250%, 300%
Stitching Type – Side Hems	Blind lined method (Bottom Hems)
Stitching Type – Bottom Hems	Blind lined method (Bottom Hems)
Left / Right Hem Size	1 1/2"
Bottom Hem Size	4"
Buckram Width	3"
Lining Stitching	Sewn within side hems, bag lined
Grommet Colours Available	Brass, Antique Silver, Polished Nickel, Matt Black and Oil Rub Bronze
Grommet Sizes Available	1 5/8"
Maximum Pole Diameter	1 1/4"
Number of Eyelets used per width	8 (always an even # of grommets)
Grommet Position	1 1/8" from top of drape (from top inner side of grommet)
Distance between each eyelet	4" to 5"
Weighted Corners	1.5 grams weight in each corner (2 per drape)
Thread Colour	Color coordinated to the face fabric
Manufacturers Tolerances	3/8"-1/2"
Fitting Type	Pole
Measurement Type	Length = Pole to hem
Fabric Return	3 1/8" from eyelet center to finish point. For bigger returns, pls specify on the order.

Note: This product will require additional dressing.

## Drapery Specification - Back Tab

OPTION	DESCRIPTION
Minimum Sizes Available	(W)26" x (H) 12"
Fullness	150%, 200%, 250%, 300%
Stitching Type (For Lined Drapery)	Blind lined method (Side Hems)
Stitching Type (For Lined Drapery)	Shade stitch method (Bottom hems)
Left / Right Hem Size	1 1/2"
Bottom Hem Size	4"
Buckram Width	3"
Lining Stitching	Sewn within side hems, bag lined
Maximum Pole Diameter	3/4" - 3"
Weighted Corners	1.5 grams weight in each corner (2 per drape)
Thread Colour	Color coordinated to the face fabric
Manufacturers Tolerances	3/8"-1/2"
Fitting Type	Pole
Measurement Type	Length = Pole to hem
Fabric Return	3 1/8" from eyelet center to finish point. For bigger returns, pls specify on the order.

Note: This product will require additional dressing.

## Drapery Specification - Pinch Pleat

OPTION	DESCRIPTION
Minimum Sizes Available	(W)26" x (H) 12"
Fullness	150%, 200%, 250%, 300%
Hooks	Stainless hooks
Number of Hooks used per 1m	11
Stitching Type – Side Hems	Blind lined method
Stitching Type – Bottom Hems	Blind lined method
Left / Right Hem Size	1 1/2"
Bottom Hem Size	4"
Tape Width	4"
Lining Stitching	Sewn within side hems, bag lined
Joins	Overlocked and cut
Pleat Depth	1-1/8"
Distance between each hook	4" up and down
Weighted Corners	1.5 grams weight in each corner (2 per drape)
Thread Colour	color coordinated to the face fabric
Manufacturers Tolerances	3/8" - 1/2"
Fitting Type	Track, or pole (with rings)
Measurement Type	Finished Length

Note:This product will require additional dressing.

## Drapery Specification - Ripplefold

OPTION	DESCRIPTION
Minimum Sizes Available	(W)26" x (H) 12"
Headings Available	1"
Fullness	80%, 100%, 120%
Hooks	A unique easynap tape using plastic snaps
Stitching Type – Side Hems	Blind lined method
Stitching Type – Bottom Hems	Blind lined method
Stitching Type – Top Heading	single needle stitching
Top Hem Size	N/A
Left / Right Hem Size	1 1/2"
Bottom Hem Size	4"
Lining Stitching	Sewn within side hems, bag lined
Weighted Corners	1.5 grams weight in each corner (2 per drape)
Thread Colour	Color coordinated to the face fabric
Fitting Type	Compatible ripple fold track
Measurement Type	For drop = Exact drapery size (hem to hem)

Note:This product will require additional dressing.

If the drapery size is out of the table, we will quote separately upon your request.

Board-mounted side panels are an easy and modern alternative to traditional side panels, eliminating the need for decorative hardware. They are stationary and attached to a board wrapped in the same fabric as the panel.

## Standard Specifications

- All side panels are made at 3-finger pleats which are 250% fullness for standard (non-sheer) fabrics, except 2-finger pleats which are 200% fullness, 1-finger pleats which are 150% fullness, tacked at top, middle, or bottom.
- For sheer fabrics all side panels are made at 3-finger pleats which are 300% fullness for standard, except 2-finger pleats which are 250% fullness, 1-finger pleats which are 200% fullness, tacked at top, middle, or bottom.
- The leading edge size is 3 1/2".
- 1 1/2" double folded side hems and 4" double bottom hems.
- White, gray, or beige light filtering lining (workroom matches).
- Sheer draperies are unlined.

## Pleated Header Styles

- All side panels are made at 150%, 200%, or 250% fullness for standard fabrics, 200%, 250%, or 300% fullness for sheers. Tacked at top, middle or bottom.

## Pin Setting

- The standard pin setting is 1/4" down from the top of the drapery.

## Size Limitations

- 2 options for width: 20" or 40".
- Minimum Height (inches): 12".
- Maximum Height (inches): 225".

## Board Specifications

- Material: Poly vinyl chloride foam board.
- Width: 3 1/2".
- Height: 5/8".

## Returns

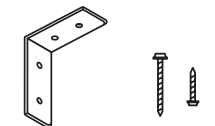

- The standard return size for board-mounted side panels is 3 1/2".
- Panels ordered as both returns only.
- Panels will wrap to the wall on the return side only.

The panel returns to the wall on both sides. The board is straight cut.

## Installation Brackets

- 2" screws are standard for ceiling mount panels.
- 1 1/5" screws are standard for wall mount panels.
- "L" brackets are standard for wall mount panels.

"L" Brackets Screws

## Side Panel Prices = Step 1 + Step 2 + Step 3

Step 1 - Choose A Head Style

Step 2 - Choose A Fabric (Sheer)

Step 3 - Choose A Liner (Optional)

- Standard Fullness:**
- Pinch Pleat For Fabric 150%, 200%, 250%
  - Pinch Pleat For Sheer 200%, 250%, 300%

**Prices Vary Form Custom Fullness Upon Request.**

# LIMITED LIFETIME WARRANTY

Below warranty terms are subject to the original residential retail purchaser as long as the product remains in the original window.

## **Covered:**

Lifetime: Whole line of product against manufacturing defects (flaw in the product design, materials, or workmanship that can cause the product to malfunction).

2 years: Drapery.

## **Not covered:**

Normal Wear and Tear.

Any product that fails due to:

improper installation / improper use / accident / over use / alterations / improper cleaning / misuse / damage from pests (insects / pets).

Costs associated with:

product removal / transportation / label removal / product re-measurement / incidental damages / re-installation of product / shipping cost.

In case there are numerous products in the same room, only the imperfect one will be replaced.

## **To Obtain Service**

If you believe the product has a manufacturing defect in materials or workmanship:

1. Take a photo of the flaw.
2. Email us the photo including order to [info@drapemax.com](mailto:info@drapemax.com)
3. Please note, unauthorized claims will not be accepted.
4. All products returned must have a return authorization number.

## **Warranty Remedy**

If the product has a manufacturing defect in materials or workmanship (at our discretion) do one of the following:

Repair the product / replace the product / refund the cost of the product.

Discontinued items or color sections will be changed with the closest current product we have.

Also, color may change from lot to lot and possibly may not match exactly sample swatch or prior purchases.
